Address: Lahore, Pakistan (Home)

ABOUT ME

Innovative and detail-oriented Front-End Developer with 3 years of experience building responsive, user-centric web applications. Proficient in HTML, CSS, JavaScript, React.js, and Next.js, with strong additional experience in TypeScript, Tailwind CSS, and modern UI/UX practices. Skilled in translating complex requirements into intuitive interfaces and collaborating effectively with cross-functional teams to deliver high-quality, scalable products. Adept at optimizing performance, writing clean and maintainable code, and continuously adopting emerging front-end technologies to enhance user experience and development efficiency.

WORK EXPERIENCE

🏢 **CODE LAB** – BAHAWALPUR, PAKISTAN

FRONTEND DEVELOPER (INTERN) – 06/2023 – 08/2023

- My work involved translating design concepts into functional and user-friendly web pages.
- I gained hands on experience with HTML, CSS, and Bootstrap in a software house setting, creating responsive and visually appealing web interfaces.
- I developed clean, efficient code for various projects, ensuring compatibility across browsers and devices.

🏢 **LOGICAL CREATIONS** – LAHORE, PAKISTAN

FRONTEND DEVELOPER – 10/2023 – CURRENT

- I have contributed to several major projects, including HRM systems, e-commerce platforms, booking applications, and CMS websites.
- As a Front-End Developer, I built responsive, high-performance, and user-friendly interfaces using modern technologies.
- I translated UI/UX designs into clean, reusable components, optimized application performance, and ensured smooth functionality across all devices.
- I collaborated with designers, backend developers, QA, and project managers to deliver scalable solutions aligned with client needs. Through these projects, I strengthened my skills in component architecture, state management, API integration, and front-end best practices, ultimately improving user experience, reducing UI inconsistencies, and enhancing overall product quality.

EDUCATION AND TRAINING

01/2020 – 2024 Bahawalpur, Pakistan
BS-IT (INFORMATION TECHNOLOGY) The Islamia University

LANGUAGE SKILLS

Mother tongue(s): **URDU** | **PUNJABI**

Other language(s): **ENGLISH**

SKILLS

JavaScript | Typescript | React Js | Next Js | React native App | Tailwind CSS | Bootstrap | Materia; UI | Ant Design | Redux | Gsape | Framer motion | ShadCn | tenstack query | Git | Jira | Fomik | React Hook form | Postman | Bit Bucket | REST API | Stripe Integration

PROJECTS

Wateen

Built with Next.js, TypeScript, and Tailwind CSS for a scalable and responsive front-end. Implemented animations using GSAP and Framer Motion, and integrated i18n for multi-language support

[Restaurant Inventory Software For Multi-Branch](#)

Jigsaw

Developed the Jigsaw project using Next.js and TypeScript with API integration via Axios for dynamic data handling. Implemented custom animations and integrated multilingual support for an interactive, globally accessible user experience.

[Custom Online Ordering App & Website | Jigsaw](#)

LYNCC

Developed the LYNCC project using Next.js and JavaScript with API integration via Axios for dynamic data handling. Implemented custom animations and integrated multilingual support for an interactive, globally accessible user experience.

[Lyncc](#)

HRM

Developed React and JavaScript with Formik and Yup for robust form validation, Redux for state management, and API integration for dynamic data handling.
Implemented user roles, authentication, and real-time notifications using WebSocket to deliver a secure and interactive user experience.

[DASH TIME](#)

SpeedWay

Write here the description...Developed the SpeedWay project using React, JavaScript, and Tailwind CSS to create a responsive and visually appealing front-end.
Integrated MailJS for email functionality and ensured full responsiveness across devices for an optimal user experience.

[Speedway Homes | Surrey Real Estate Development](#)

Lesfemmes CMS Dashboard

Developed the LesFemmes e-commerce CMS dashboard using React and JavaScript, with Formik and Yup for form handling, Redux for state management, and API integration for dynamic data.
Implemented role-based access, authentication, and permissions to ensure secure and efficient management of the platform

[LESFEMMES](#)

Reachware CMS Dasjboard

Developed the ReachWare dashboard using React and JavaScript, with Formik and Yup for form validation, Redux for state management, and API integration for dynamic data handling.
Implemented role-based access, authentication, and permissions to deliver a secure and efficient admin experience

[Reachware Dashboard](#)

Trustangle

Worked on the Trustangle project using Laravel Blade and Bootstrap, focusing on fixing responsive issues and improving overall UI/UX across devices.
Implemented SEO optimizations, including proper heading structure, meta tags, and other SEO-related settings to enhance search engine visibility
